

COUNTY GOVERNMENT OF ELGEYO MARAKWET

THE COUNTY TREASURY

2025/2026 FINANCIAL YEAR BUDGET ESTIMATES

(PROGRAMME BASED)

(APPROVED)

JULY 2025

FOREWORD

The County Government of Elgeyo Marakwet has consistently fulfilled its statutory financial obligations in line with Kenya's fiscal legislation since its inception in 2013. Budget formulation is guided by Section 12 of the Second Schedule of the Public Finance Management (PFM) Act, 2012, and adheres to the national budget calendar. Key inputs to the 2025/26 Budget Estimates include the FY 2025/26 Annual Development Plan (ADP), the 2024 County Budget Review and Outlook Paper (CBROP), the 2025 County Fiscal Strategy Paper (CFSP), and the 2023-2027 County Integrated Development Plan (CIDP).

This budget represents the fourth year of implementing the third-generation CIDP, which continues to provide a strategic framework for planning, resource allocation, and performance monitoring. Lessons from prior fiscal cycles have been leveraged to refine expenditure planning, despite constraints to full participatory engagement. Nonetheless, the developmental priorities outlined in the 2025/26 ADP and expenditure ceilings informed by the 2025 CFSP have been critical in shaping the budget's structure.

In compliance with the County Equitable Development Act, 2015, the budget ensures proportional resource distribution across all wards, reinforcing inclusive growth. The total resource envelope for FY 2025/26 stands at Kshs. 8,849,613,252, comprising of Kshs. 5,049,704,514 (57.1%) from the Equitable Share allocation by the Commission on Revenue Allocation (CRA), Kshs. 1,432,442,748 (16.2%) in conditional grants, Kshs. 457,429,871 (5.2%) from Own Source Revenue (OSR) and Ksh. 1,910,036,119 (21.6%) rolled over funds from 2024/2-25 financial year.

On the expenditure side, Kshs. 6.21 billion (70.22%) is allocated to recurrent expenditure -including Personnel Emoluments (PE) and Operations & Maintenance (O&M) while Kshs. 2.64 billion (29.78%) is committed to development spending. The recurrent budget remains under pressure from rising wage obligations, driven by periodic salary reviews and employee benefits. To manage fiscal sustainability, the county intends to leverage staff exits through non replacements to moderate growth in the wage bill, with savings redirected toward capital investments.

Despite revenue limitations, the FY 2025/26 budget achieves a legally balanced position. Enhancing OSR performance remains a key medium-term objective. The county will pursue automation and institutional reforms in revenue collection systems to expand its revenue base, improve compliance, and reduce leakages.

ACKNOWLEDGEMENT

The development of the Budget Estimates for the 2025/26 Financial Year was undertaken through a structured, data-informed, and participatory process. Input was sourced from all county departments and the County Assembly, with stakeholder engagement sessions conducted in alignment with the Annual Development Plan (ADP) and the County Fiscal Strategy Paper (CFSP). Additionally, public forums were held in all the wards to ensure comprehensive citizen participation and foster priority need driven budget.

The estimates outline the projected resource envelope for FY 2025/26 and the corresponding expenditure framework. Given fiscal constraints, resource allocation required rigorous prioritization and trade-off analysis to optimize impact and minimize interdepartmental conflict. This approach aimed to ensure efficiency in the utilization of public funds and transparency in the budgeting process.

We extend our sincere gratitude to all county officials and staff who played a role in developing these Budget Estimates. Their dedication and commitment to advancing the county's development agenda are highly commendable. Special appreciation goes to the Governor, Deputy Governor, County Executive Committee Members (CECMs), Chief Officers, Directors, and all other personnel involved in the process. We also recognize the technical team from the Department of Finance and Economic Planning, particularly the Economic Planning and Budgeting Directorate, for their diligent efforts.

We wish to acknowledge Mr. Alphaeus Tanui, the County Executive Committee Member for Finance and Economic Planning, for his leadership and guidance, which were instrumental in steering the technical team through the successful preparation of this document. Finally, we thank the county leadership, the citizens, and all other stakeholders for their active participation and valuable contributions throughout the Budget Estimates preparation process. Their engagement remains a critical component of evidence-based and accountable governance in our county.

PUBLIC ADMINISTRATION AND GOVERNANCE SECTOR

Introduction

The sector focuses on provision of county leadership and overall policy direction. Its functions are coordination of county government functions and provision of oversight functions. It is at the forefront in implementation of county development aspirations through improved policy direction, coordination and information sharing between departments and other entities.

The sector comprises the following sub sectors, Office of the Governor and Executive Administration, Public Service Management and County Administration, The County Public Service Board, Finance and Economic Planning and The County Assembly.

1.1 4361 COUNTY ASSEMBLY

PART A: Vision

To be a vibrant, model assembly that champions citizen aspirations.

PART B: Mission

To provide transformative citizen representation through legislation and oversight of Public Resources.

PART C: Performance Overview and Background for Programme(s) Funding

In the 2024/25 Fiscal Year, the county assembly was allocated Ksh.642,494,863 for recurrent expenditure.

During the period the following achievements were realized: the county assembly has passed several bills that have helped the county in management of its resources and ensure smooth running in the county. During the period the county assembly did not implement any development projects due to limited resources.

During the period under implementation of the budget there was resource constrain on budget allocation on development expenditure which has led to slow implementation of development projects within the assembly.

Major Services/Outputs to be provided in MTEF period 2024/2025 – 2026/2027 and the inputs required

The County Assembly is the arm of the County Government that makes legislation, represents the people and provides oversight on public finances. The County Assembly's function is to facilitate the members of the County Assembly to efficiently and effectively fulfill those Constitutional functions in a representative system of government by holding and ensuring that the autonomous status of the assembly in its corporate relationship with the executive arm of the government is maintained. The major services/outputs to be provided in the MTEF period of 2025/26 – 2027/2028 and inputs required are:-

- a) Enactment of laws
- b) Representation
- c) Oversight on utilization of public resources
- d) Capacity building

To implement the above programmes and projects, the Assembly will utilize Kshs. 682,127,598 for recurrent expenditure and kshs.26, 872,402 for development expenditure.

PART D. Programme Objectives

Programme	Objective
P.1 Legislation and Representation	To strengthen the capacity of Members of County Assembly to make laws and enhance their representative capacity
P.2 Legislative Oversight	To strengthen the capacity of making and oversight the county Budget for optimal use of Public Resources and enhanced accountability in governance
P. 3 General Administration, Planning and Support Services	To enhance professionalism, build human resource capacity and provide effective services to the Legislature to enable it meet its Constitutional mandate

1.2 4362 OFFICE OF THE GOVERNOR AND EXECUTIVE ADMINISTRATION SUB-SECTOR

PART A: Vision

Accountable leadership in a conducive, inclusive, transparent, and citizen-centered environment.

PART B: Mission

To develop a democratic atmosphere and a strong governance institution that economically, socially, and politically empowers citizens.

PART C: Background Information and Performance Overview

The main mandates of this sub-sector are to provide county leadership in implementation of county development aspirations and priorities and to ensure efficient and effective coordination of devolved functions for enhanced service delivery.

The sub-sector comprises of entities including Governor's Office, Deputy Governor's Office, County Secretary's Office, Advisory Office (Economic, Legal, Political and Gender), Liaisons and hospitality Office, County Attorney, Governors Press, Peace Building, Conflict Resolution and disaster Management, Resource Mobilization, Office of the Chief of Staff, Internal Audit and Protocol.

The Office of the Governor made huge progress in efforts to ensure sustainable socio-economic development of the county. In the past financial year, resource mobilization efforts were taken a notch higher by this office. This was achieved through collaboration with national and International Donors and the national government. The County Government continued to seek more partners in several sectors. It managed to partner with Kentegra in promotion of cash crops such as Pyrethrum, coffee among others. In addition, the county as partnered with several universities majorly in Australia and Canada and recently with Handing university USA for continued Airlifting of Students Abroad through PEPEA program. Also, the county is partnering with KCB on Wezesha Tujiajiri Program to empower the youth through youth skills and equipping them with starter pack kits for self-employment.

The department has done facilitation of Memoranda of Understanding (MOU) with various companies, assent of laws and regulations and carried out National and International meetings and have held several peace meetings on conflicts (cattle rustling and banditry) arising along Kerio Valley, the major conflict-prone areas. In addition, the county continues to suffer from emergencies such as heavy rains during the start of the rainy season which resulted to blockages an impassable road hindering service delivery. The county has allocated funds to effectively respond to it as part of the mission to eradicate poverty, reduce inequality and build resilience to crisis and shocks. The county continues to empower the community through Huduma Mashinani program and public participation on opportunities and ways of improving their livelihoods by adopting the programmes being rolled out by the country government.

1.4 4373 PUBLIC SERVICE, DEVOLUTION, ADMINISTRATION, COMMUNICATION, ICT AND E-GOVERNANCE SUB-SECTOR

PART A: Vision

A leader in transforming the delivery of human resource and services in the public sector.

PART B: Mission

To provide quality public services in a timely and competent manner, and to work with the cooperation of all units to create a vibrant and healthy physical, social, and economic environment.

PART C: Background Information and Performance Overview

The sub sector is responsible for coordinating county government functions. It also provides overall policy and leadership direction to the county as well as the human resource functions in the public service. It comprises Human resource, Payroll, Alcoholics Drinks Control, Aids Control Unit, Communication and ICT, Citizen participation and civic education, County administration.

During the 2023/24 FY the department was able to partially equip X Sub- County offices and Y ward offices to enhance access to government services at the grassroots, trained over 1,085 youth under the Digital Skills Program funded Ajira Digital and implemented performance contracting for CECMs and Chief officers to enhance performance and results-based management. In 2024/25 FY, over 1,250 youth will be trained under the Digital Access Program funded by the UK through AWCICT as well as expansion of the Ajira Digital Skills Programme to all wards, targeting youth and marginalized groups. Also equipping of ward and sub- county offices will continue to ensure that they are fully operationalized so that government services are readily accessible at the grassroot levels.

The department aims to strengthen devolved service delivery structures by equipping Sub-County and Ward offices to operationalize and facilitate service delivery at grassroots levels. It continues to empower Ward Development Committees (WDCs) and Project Management Committees (PMCs) to enhance citizen participation in the project lifecycle. Additionally, the department is engaged in continuous civic education and citizen engagement, conflict resolution initiatives, and community meetings with elders to address insecurity and land disputes, particularly in the Kerio Valley region.

INFRASTRUCTURE SECTOR

Sector Introduction

The infrastructure sector is charged with the responsibility of developing infrastructure including roadworks, bridges, foot bridges, public works, and street lighting.

Sector Composition

The sector is comprised of Roads, Public Works and Transport and strives to achieve four main goals namely:

- Improved Access leading to mobility of traffic.
- Reliable appropriate infrastructure development.
- Prompt response to fire emergencies.
- Increased access to energy source/electricity.

These goals will be achieved through the following: -

- Design, construction, rehabilitation, and maintenance of county infrastructure.
- Provision of an efficient and effective fire emergency response system.
- Development and maintenance of Government/Public/Institutional buildings.
- Installation of streetlights in urban areas.
- Purchase and Maintenance of county equipment.

2.1 4369 ROADS, PUBLIC WORKS & TRANSPORT

PART A: Vision

A modern and interconnected transport infrastructure for efficient movement.

PART B: Mission

To develop world class transport infrastructure and public works.

PART C: Background Information and Performance Overview

The department comprises the following three directorates/sections: Roads, Public Works and Transport services. The county has a total road network of 2,828 Km of which 28 % is Bitumen, 59 % is gravel surface and 13 % is earths' surface. All-weather roads enhance accessibility and thus facilitate mobility of people, goods, and services. This consequently promotes trade, investment, agribusiness, and dissemination of information. It also enhances delivery of health care services, education, and other government services.

During 2024/25 financial year, the department undertook critical maintenance works on all roads, including feeder roads. Several new road projects aimed at further opening the county and facilitating the free movement of people as well as enhancing economic activity were opened. These strategic interventions are intended to achieve; Improved access of the county leading to mobility of traffic and reliable appropriate infrastructure development. During the period under review the works under implementation include opening of more than 150 KM of roads thus additional length to the total road network, general road maintenance of more than 200 KM, 1 box culvert, 2 footbridges and 720 Metres of culverts. The significant increase in the length opened is attributed to the in-house use of government machinery.

The public works unit facilitates Design, drawings, development of BoQs, construction supervision and maintenance of public buildings and other public works within the county. It is charged with the responsibility of ensuring that public buildings are safe, habitable, and meet universal standards. This requires constant supervision, monitoring, and evaluation. But the unit faces budgetary constraints as well as lack of enough supervisory vehicles.

PART D: Programme Objectives

Programme	Objective(s)
P.1. General Administration and Support Services	To improve service delivery
P.2. Roads Improvement	To Design, develop, maintain and rehabilitate county road network for economic development
P.3. Public Works	To design, develop, maintain and rehabilitate safe and cost-effective public buildings and civil works

2.2 4368 LANDS, PHYSICAL PLANNING, HOUSING, URBAN DEVELOPMENT

PART A: Vision

A Well-planned human settlement for accelerated economic development.

PART B: Mission

To effectively administer land resources and provide adequate urban utilities for sustainable development.

PART C: Background and Performance Overview

This department consists of Lands, Physical Planning, Housing and Urban Development units. It is mandated to; administer, manage, and maintain county residential houses, collect, process, disseminate and archive accurate geospatial data for sustainable utilization of resources, facilitate land registration and provide security of land tenure to the landless, ensure efficient administration and management of land. It also ensures attainment of an orderly, progressive, and sustainable urban and rural development.

To achieve efficient and environmentally sound land uses and development in both urban and rural areas. The department intends to develop a county spatial plan and develop urban plans for urban centers and towns alongside implementing developed urban development plans through establishment of sustainable urban infrastructure.

Through the Kenya Urban Support Programme (KUSP) the county has been able to upgrade urban infrastructure which include development of drainage works on the already tarmacked roads, establishment of County disaster unit by construction of a disaster management center. There is a need to acquire a fire engine and its accompaniments.

In order to achieve the objectives of the department there is need to formulate a slum upgrading and prevention strategy, a development control policy, zoning policy, domestication of National Urban Development policy, County land dispute resolution policy, Land Acquisition policies, GIS Based valuation roll and implementation of Urban Areas and Cities Act, 2011 and establishment of alternative justice system (AJS). Management of urban areas can be enhanced through undertaking classification of urban areas, preparation of municipal by-laws and supporting development of institutions of urban governance which in turn will aid in promoting and monitoring the growth of urban areas.

To achieve effective administration of land resources and provision of adequate urban utilities for sustainable development in both urban and rural areas, 7 urban centers have approved urban development plans, while the majority of the other urban centers have draft plans prepared. The Department strives to prepare local physical and land use development plans (spatial plans) for

13 urban centers and towns. The county lacks a county spatial plan, which the department also intends to prepare through support from development partners.

Through the Kenya Urban Support Programme (KUSP) the county has been able to upgrade urban infrastructure which include development of drainage works on the already tarmacked roads, establishment of County disaster unit by both construction of the unit and acquisition of a fire engine. The county commits to continuous upgrading of urban slums through the Kenya Informal Settlement Programme (KISIP) and KUSP partnership. The county is in the process of Developing the County Spatial Pan (CSP) that will guide the development in the County and Development of By- Laws that will guide the operations within Iten Municipality and other Urban Areas across the County.

2.3 4365 WATER, ENVIRONMENT AND CLIMATE CHANGE

PART A: Vision

A secure community living in a quality, habitable and sustainable environment.

PART B: Mission

To provide adequate and quality water, conserve and protect the natural environment for sustainability and climate change resilience.

PART C: Background and Performance Overview

The Department of Water, Environment and Climate Change in Elgeyo Marakwet County comprises two key directorates: the Directorate of Water and the Directorate of Environment and Climate Change. The Directorate of Water is responsible for water resource mapping, conducting hydrogeological surveys and designs, developing and managing water infrastructure, and overseeing the operations of government-gazetted water supplies. On the other hand, the Directorate of Environment and Climate Change is mandated with ensuring environmental protection, enhancing tree cover, and mainstreaming climate change adaptation and mitigation strategies across the county.

By 2024/25 financial year, the department had made considerable progress in expanding access to clean and reliable water across the county. The county government, through concerted efforts and strategic partnerships, has managed to construct over 370 kilometers of water pipelines, which represents a significant increase from the 280 kilometers achieved in earlier years. The number of masonry water tanks constructed also rose from 62 to 85, providing essential water storage capacity in various communities. In addition, the county successfully drilled, cased, and equipped 35 boreholes and constructed 57 water intakes, up from the previously reported 22 boreholes and 40 intakes. These developments have led to a substantial reduction in the average distance residents must travel to access water, which decreased from approximately three kilometers in 2021 to less than one kilometer by close of FY 2024/25.

The two principal water service providers in the county, Iten Water and Sewerage Company Limited (ITWASCO LTD) and Cherangany-Marakwet Water and Sanitation Company Limited (CHEMAWASCO LTD), have continued to collaborate effectively with the County Government. Their efforts in expanding last-mile connectivity have notably improved water access coverage, reaching 78 percent of households in the county by 2024/25, up from 62 percent just four years earlier.

In the realm of environmental protection and climate change response, the county has operationalized key policy frameworks including the Elgeyo Marakwet Sustainable Tree Growing Policy of 2020, the Climate Change Act of 2021, and the Climate Change Fund Act of 2021. To complement these policies, the department has established tree nurseries in every ward, with each nursery producing over 15,000 seedlings annually. These efforts have led to the planting of over 1.2 million trees across the county since 2021. Moreover, regulations aimed at controlling air and noise pollution are currently undergoing review, with stakeholder consultations in progress to ensure inclusivity and effectiveness.

As part of the county's broader environmental restoration agenda, over 600 hectares of degraded land in the Cherangany and Kaptagat water towers have been rehabilitated through targeted reforestation and conservation activities. In addition, the county has actively promoted the adoption of green energy technologies such as solar-powered irrigation systems and biodigesters, which have now been implemented in 60 percent of public institutions within the county.

Looking ahead, the department will continue to focus on constructing new water intakes, dams, water pans, and boreholes to increase water availability and improve the functionality of existing sources. It is also prioritizing the expansion of water distribution infrastructure through the construction of additional pipelines, storage tanks, and water troughs to bring water closer to more residents. Rainwater harvesting and conservation strategies are being promoted countywide to ensure optimal use of existing water resources, while desilting of five major dams is underway to restore their storage capacity by an estimated 30 percent.

To enhance efficiency in water service delivery, the county is in the process of implementing a smart water metering and billing system. This will improve accountability and ensure the financial sustainability of the infrastructure in place. The government continues to encourage Public-Private Partnerships and is committed to strengthening local governance structures to better manage water development projects. Furthermore, a community-based approach remains central to the department's strategy, with over 200 community water committees now trained and engaged in initial surveys, decision-making, project implementation, and monitoring. This approach has proven critical to promoting ownership and long-term sustainability of water infrastructure.

The Department, in close collaboration with development partners such as the Financing Locally-Led Climate Change Action (FLLoCA) Program and other stakeholders, continues to champion environmental conservation and climate resilience initiatives. Through this collaboration, the county has enhanced its capacity for climate change mitigation and adaptation, promoted alternative livelihoods, expanded agricultural extension services, and fostered sustainable environmental practices throughout Elgeyo Marakwet.

PART D: Programme Objectives

Programme	Objective(s)
P1. General Administration and Support Services	To improve efficiency in water, environment and climate change management for effective service delivery.
P2. Water Services	Enhance sustainable access to clean and adequate water to the citizens.
P3. Environmental Management	Restore, protect, conserve, and manage the environment for sustainable development
P4. Climate Change Management	Enhance climate change mitigation, adaptation, and resilience
P5. Water Service Providers	Enhance access to potable water

SOCIAL SECTOR

INTRODUCTION

The social sector covers a large segment of the entire population comprising women, the elderly, youth, PWDs and children. These groups encounter several challenges ranging from illiteracy, health care, unemployment, miss-match of relevant skills set and drug and substance abuse.

This sector aims to enhance social inclusion and equal opportunity for all by enabling active participation for all members of the society in all aspects of life hence providing tremendous drive-in achieving gains in health, education, employment thus improved livelihoods.

A significant number of school-going children are not enrolled in learning institutions and lack nutritional support, the youth who are the majority in the labour force are either not employed or lack relevant skill sets, the women lack sufficient empowerment support in accessing credit and other means of production.

The sector comprises Education and Technical Training and Sports, Youth affairs, culture, Children and Social Services sub-sectors.

3.1 4372 SPORTS, YOUTH AFFAIRS, ICT AND SOCIAL SERVICES

PART A: Vision

A cultured, cohesive, and empowered community active in sports

PART B: Mission

To provide effective social services, promote sports and preserve culture.

PART C: Background Information and Performance Overview

The Sub Sector comprises Sports development (Infrastructure & Talent development), Social Services and culture preservation. The department's mandates include sports Stadia development, sports activities enhancements, talents development and mentorship programs, women, special needs groups and youth empowerment, and culture preservation which are geared towards building a better and inclusive County.

Amongst the achievements, the department has met so far includes supporting 16 PWDS groups, Women groups and youth groups with income generating projects and equipped 341 youth with technical skills. More than 886 youth have been trained on technical skills and awaiting graduation under Wezesha Vijana Tujajiri programm. Additionally, in cohort 3, a total of 500 youth under the same programme have been enrolled to different Vocational Training Centers (VTCs) in the county. Various sports tournaments i.e. football and volleyball were held at all wards. In athletics, Iten International Marathon was held at County Level in November 2024 which attracted over 500 elite athletes. From the marathon, 80 athletes were awarded prize money of Ksh 7,480,000. The National government in partnership with the county government have commenced the process of upgrading Iten and Kamariny Stadia to international standards.

The Department further intends to empower special interest groups (Youth Women, PWDs and other vulnerable persons) through provision of income generating activities, awareness programmes and social life skills trainings. The County has also prioritized the integration of information and communication technology in implementation of its programs. This will include upgrading of 24 ward sports fields, hosting various sports tournaments to enhance talent identification and development. Further, the county has prioritized empowerment of cultural and traditional registered groups through cultural exhibitions and cultural shows 3 wards allocated funds for cultural festival.

The county however faced several challenges during implementation of programs and projects in financial year 2024/25. This was occasioned by heavy downpour at the third quarter of the financial year leading to short term flooding hence delays in implementation of infrastructural projects such as field levelling. Doping is other main challenge facing sports which have led many athletes being banned and risking the nation being banned from participating in international sports. The county has therefore integrated anti-doping campaigns in most of its public participation and awareness programs in collaboration with several stakeholders.

3.2 4366 EDUCATION AND TECHNICAL TRAINING

PART A: Vision

A Quality and affordable education and training accessible to all.

PART B: Mission

To provide and promote an education and training environment conducive for acquisition of desired values, attitudes, knowledge, skills and competencies for global competitiveness by fostering educational excellence and ensuring equal access.

PART C: Background Information and Performance Overview

Pre-Primary Education

Over the past financial year 2023/24 the department endeavoured to facilitate pre-primary education to ensure equitable access to quality education. The number of ECDE centres rose from 506 to 528. This is attributed to various factors ranging need and the desire to locate pre-primary institutions at the standard prescribed distance of 2.5 km apart. There was rise in overall enrolment from 32,403 to 36,230. This improvement in enrolment can be partly attributed to county government investment in infrastructure through construction of classrooms, replacement of teachers exiting service, prompt renewal of contracts, integration of digital literacy; digital personalised learning (DPL) and provision of capitation which include school feeding program.

However, the county's pre-primary NER was 75.8 percent in 2024 compared to the national average of 77.2 percent which is an indication that close to 1.8 percent of children who attained pre-primary school-going age were not enrolled.

During the period under review (FY 2023/24) there were best practices to be replicated, lessons learned and challenges to resolve. Some of the lessons learned include community involvement, stakeholders' awareness and sensitization, digital literacy and localization of curriculum among others. Despite the lessons learned, some challenges ranging from monitoring systems lag, teacher motivation through confirmation of appointment to permanent and pensionable terms other than casual contract, high teacher pupil ratio and low inclusive learning strategies are greater impediments to access.

Vocational Education and Training

During the period under review FY 2023/2024, the department committed to implement vocational training programme with the objective of improving access, quality and relevance. On infrastructure upgrade strategy, two twin workshops were constructed in FY 2023/2024 while on targeted access 239 trainees were provided with capitation funds in four VTCs. Enrolment across 16 VTCs in the county rose from 2,005 trainees in 2023 to 2,231 (male 1,345; female 886) in 2024 representing 11% increase in enrolment rate. During the same period, VTC completion rate also increased from 81% (813 trainees) to 91% in 2024 (1,015 trainees).

In spite of these gains, vocational training sub sector faced a number of challenges which included inadequate financing of key training inputs, under-staffing, inadequate infrastructure, low community awareness among others.

To address these challenges and emerging issues and further taking into account the aspirations of CIDP III (2022/2027), the department will prioritize six key strategies. These include: community sensitization on VTC training, industry engagement/participation in VTC training programs, quality assurance, instructors' capacity building, infrastructure upgrade and targeted access in VTCs.

HEALTH SECTOR

Introduction

The sector is responsible for promoting and protecting the health of residents within the county. This includes a wide range of activities, such as monitoring and responding to outbreaks of infectious diseases, construction, and maintenance of health care facilities, providing public health education and outreach, and coordinating with other organizations to address public health issues. The goal of the sector is to improve the overall health and well-being of the community. The sector comprises: preventive, promotive and curative health services.

Moreover, the health sector recognizes its interdependence with other major productive sectors, namely agriculture, tourism, manufacturing, and energy. These sectors heavily rely on a healthy and productive workforce to thrive. A strong health sector is crucial in ensuring that the workforce remains healthy, reducing absenteeism, increasing productivity, and driving economic growth. In turn, the success of these productive sectors contributes to the overall well-being of the community.

4.1 4367 HEALTH AND SANITATION

Part A: Vision

An efficient and high-quality health care system for all county residents.

Part B: Mission

To provide quality healthcare services that is accessible, equitable and affordable to all county residents.

Part C: Background Information and Performance Overview

The Department of Health made significant progress in improving healthcare delivery across the county during the 2024/25 financial year. In immunization and child health, coverage rates increased from 69% to 70%, while the proportion of facilities offering immunization services expanded from 60% to 90%. This improvement was achieved through the installation of specialized vaccine storage equipment in 110 health facilities and 4 sub-county depots, ensuring proper cold chain maintenance.

Maternal health services showed notable gains, with skilled birth attendance rising from 67.4% to 69%. Infrastructure improvements played a crucial role, with renovations completed at nine key health facilities including Simotwo, Kapkessum, and Msekekwa. Emergency response capabilities were enhanced through the acquisition of two Basic Life Support ambulances for Kabiemit and Kapsowar Wards.

The Universal Health Coverage initiative saw substantial progress with the launch of the Community Health Promoters program. A total of 1,260 CHPs received kits and smartphones to facilitate digital reporting through the Electronic Community Health Information System, along with monthly stipends of KES 2,500. The program's reach extended to 126 Community Health Units, while 19,000 vulnerable households gained access to health insurance through NHIF enrollment.

For the coming financial year, the Department will focus on six key areas to build on these achievements. Universal Health Coverage expansion remains a top priority, with plans to enroll 100% households to SHA and strengthen the CHP program through continued training and support.

Disease prevention efforts will be intensified through enhanced surveillance systems and expanded public health campaigns. Digital transformation will accelerate with telemedicine services and further development of the eCHIS platform. Non-communicable disease management will receive increased attention through community screening programs and improved referral networks.

Infrastructure development will continue with the completion of seven major projects including Kapyego Health Centre and Fluorspar H/C, along with construction of modern wards at two facilities. The health system will be strengthened through the establishment of four Primary Care Networks and centralization of ambulance services to improve emergency response.

PRODUCTIVE AND ECONOMIC SECTOR

INTRODUCTION

This sector comprises: Agriculture, Livestock, Fisheries and Irrigation and Cooperatives, Trade, Industrialization, Tourism and Wildlife sub sectors.

The sector plays a vital role in promoting economic empowerment for both the county and its residents. It has tailored its strategies and initiatives to align with key national and global economic development objectives, including Kenya Vision 2030, the Medium-Term Plans (MTP), the Bottom-Up Economic Transformation Agenda (BETA), and the Sustainable Development Goals (SDGs).

5.1 4364 AGRICULTURE, LIVESTOCK, FISHERIES AND IRRIGATION

PART A: Vision

A food secure county creating wealth for all.

PART B: Mission

To improve the livelihood of Elgeyo Marakwet people through promotion of competitive and sustainable Agricultural, livestock and fisheries practices.

PART C: Background Information and Performance Overview

The Department is comprised of Agriculture, Livestock, Veterinary, Fisheries and Irrigation units.

Elgeyo Marakwet County relies heavily on agriculture, with over 80% of households depending on the sector for their livelihood. However, around 55% of the population faces periodic food shortages due to the heavy dependence on rain-fed farming and inefficient storage and distribution systems.

To improve farmers' incomes, the agriculture department has promoted various cash crops over the years, including coffee, tea, and pyrethrum. Supported horticultural crops include macadamia, avocado, Irish potatoes, and passion fruits. A recurring challenge has been the delay in the supply and distribution of these crops in alignment with planting seasons.

In the Kerio Valley, irrigation plays a vital role in supporting agriculture, and the region holds significant potential for irrigated farming. The county government has partnered with various stakeholders to develop irrigation through schemes such as rehabilitation of traditional furrows, expansion of the Kabanon/Kapkamak scheme, construction of the Kipchukukuu irrigation project, and promotion of individual and group irrigation efforts. These efforts have enhanced water availability, expanded irrigated land, strengthened food security, boosted income levels, and helped reduce poverty in the valley.

The county's diverse agro-ecological zones influence the types of livestock kept, which include both dairy and beef cattle. The department actively supports food safety, livelihoods, and prevention of zoonotic

diseases by collaborating with individual farmers, groups, and cooperatives. Animal breed improvement, including artificial insemination, has received increased attention. Common cattle breeds include Ayrshire, Friesian, various dairy crosses, Zebu, and Sahiwal. Goat breeds include Small East African, Toggenburg, and Alpine dairy goats, while sheep breeds include both wool and hair sheep. Poultry rearing involves indigenous birds, improved indigenous breeds, broilers, and layers.

Livestock farming significantly contributes to the county’s economy, nutrition, food security, and poverty alleviation. Dairy farming covers an over 100 hectares, with the average farm size at 1.7 hectares and daily milk production averaging 4 liters per cow.

The county also has a strong potential for apiculture, with approximately over 50,000 traditional log hives, over 1,000 Kenya Top Bar Hives (KTBH), and over 950 Langstroth hives supplied to its residents. Average honey yields per year are 20kg from Langstroth hives, 10kg from KTBHs, and 5kg from traditional hives. A honey processing plant has been set up in Emsoo ward, complementing the KVDA-managed refinery in Rokocho, Soy North.

Fish farming is being developed as a viable commercial activity. Of the 179 fishponds established through both county and national government efforts, 154 are operational, covering a total of 46,200 square meters. The estimated annual production is 5.6 tons, with tilapia, mudfish, and trout being the main species farmed.

Outbreaks of livestock diseases impose major economic burdens, affecting both the government and farmers. In response, the county's veterinary unit has conducted comprehensive vaccination campaigns against all notifiable livestock diseases and refurbished cattle dips across wards to improve pest and tick control.

PART D: Programme Objectives

Programme	Objective(s)
P1. Administration and general support services	To enhance effective and efficient service delivery
P2. Crop Development	To develop priority crop value chains into sustainable commercial enterprises
P4. Irrigation Development	To increase crop productivity through irrigation
P.6 Livestock Development	To increase livestock productivity and commercialization
P.8 Veterinary Services	To reduce prevalence of notifiable and tick-borne diseases To improve cattle breeds

5.2 4371 TOURISM, CULTURE, WILDLIFE, TRADE AND INDUSTRY

PART A: Vision

An enterprising society with opportunities that ensure sustainable growth and development.

PART B: Mission

To empower citizens, exploit business potentials, support cooperative movement, develop tourism and foster posterity

PART C: Background and Performance Overview

This sub-sector comprises of four units: Tourism, Culture, Wildlife, Trade and Industry.

The main tourist attraction in the County is Rimoi game reserve which is richly endowed with diverse flora and fauna. For wildlife, the elephant provides a unique characteristic: the largest herd of elephants found in one location in Central and East Africa. Other wildlife found in the game reserve are giraffes, water bucks, antelopes, warthogs, crocodiles, snakes and the pangolin which is a highly endangered species. Also, a variety of bird species is found in the reserve and nearby forests.

Tourism Unit focuses on revamping and developing tourism infrastructure. The department is committed to leverage on the county's competitive advantage and niche to embark on robust marketing strategy to enhance tourist arrivals to the county through collaboration strategies with development partners especially through development of Rimoi National Reserve.

Trade focuses in the provision of affordable credit services to traders and establishment of acceptable and fair standards of trading. Industrialization strives to promote investments of small, medium and large-scale industrial ventures. The small scale business people have been empowered through improvement of market stalls. The weight and measures unit of the department continued with mapping of operation centers and calibration of weight as provided for by law.

Cooperatives unit focuses on cooperative development. The focus is enhancing agricultural marketing by establishing cooperative societies and construction of storage facilities for farm products.

PART D: Programme Objectives
